**June 17-18**

**MDS 3.0 Training & Competency Testing**

MDS 3.0 marks a new era whereby long-term care providers will be identified, judged and paid based on the quality, accuracy and management of its data throughout its entire operations. Every position and process that the transition from MDS 2.0 to 3.0 touches is pivotal to a much larger operational process within your facility. From nurse aides, RNs, and DONs, to activity directors, therapists, dietary, care planning, billing, and admissions through administrators, everyone will be impacted. This program includes instruction to implement the MDS 3.0 by one of the nation’s leading experts on the MDS, and will feature the latest documents and materials from the CMS MDS 3.0 Training in April. Get ready. Implementation, October 2010!

**Objectives**

The training and competency test will cover the entire process including these high points:

- **The Basics** – MDS 2.0 and what is likely changing (and what is not) in MDS 3.0.
- **Data Collection** – How to ensure quality and accuracy throughout the MDS data collection process, from every touch point within your facility.
- **Provider Staff** – Learn which MDS 3.0 items are associated with RUGs and QMs, as well as learn the new terminology associated with MDS 3.0.
- **Interviewing Residents** – Brand new to MDS 3.0, the ability to effectively interview residents requires extra training and coordination with your care team which adds time to the data collection effort while the look-back period and filing deadlines are both shrinking.
- **Scheduling** – Chapter 2 of the MDS 3.0 Manual has numerous changes that need to be part of the facility assessment process.

**Target Audience**

June 17-18: Functional managers including DONs, RNs, Nurse Assessment Coordinators, and MDS Coordinators

April 29: Operational managers including Administrators and financial managers, and functional managers targeted in the April 27-28 seminar.

**Continuing Education Credit**

This educational offering has been reviewed by the National Association of Long Term Care Administrator Boards (NAB) and approved for the following:

- June 17-18: 10 hours CEU Credit
- April 29: 6 hours CEU Credit

---

**April 29**

**MDS 3.0 Operational Implications**

This interactive session will cover the operational issues connected with the transition from the MDS 2.0 assessment to the MDS 3.0 assessment in October of 2010. The flow of the data from the clinical and specialty units in the facility will change with the new assessment document requiring senior managers, both operational and clinical, to consider the process and establish compliant policies and procedures.

**Objectives**

This session will focus on the need for proper software, database creation and management processes. Examples of policy changes will be discussed as well as the documentation process necessary to substantiate the MDS 3.0 data sets for payment.

The RUG IV payment process will also be discussed and the changes to the data impacting payment for Part A Medicare. Examples of shifts in payment levels and analysis of RUG distribution from the RUG III to the RUG IV payment process will be discussed.

**Location**

Metro-Tech Conference Center
Room: Big Dipper
1900 Springlake Drive
Oklahoma City, OK 73111
Go to MapQuest for driving instructions.

**Seminar Information**

For additional information:
Contact: Mary Brinkley at OKAHSA, 405-640-8040, mary@okahsa.org.

**Faculty**

Leah Klusch, Alliance Training Center, is a nurse educator and consultant with over 40 years experience in the care of the elderly and operational systems for successful facility management. Leah provides quality learning experiences for professionals working in the post acute setting. Her expertise provides an all encompassing look at nursing data to give attendees an in-depth, valuable educational experience. Ms. Klusch lectures on a national basis and is the author of numerous industry publications and journals. She recently completed the CMS MDS 3.0 Train-the-Trainer course and serves as a consultant on the MDS 3.0.

**Registration Fees**

Register for the seminar(s) you would like to attend:

- **June 17-18**: $250 Pre-Registration, $275 Late Registration
- **April 29**: $80 Pre-Registration, $100 Late Registration

Registration and payment must be received 10 days prior to receive the pre-registration rate.

Cancellations received 10 days prior to seminar will receive credit, less a $20 processing fee. Cancellations received 5 days prior to seminar will receive 50% credit. Substitutions are accepted. Fee includes lunch. On-line registration: www.okahsa.org/education for credit card payments only. Registrations are accepted on a space-available basis. Early registration is encouraged.
IT'S MDS 3.0 Operational Implications

MDS 3.0 Training & Competency

Oklahoma Association of Homes
and Services for the Aging
P.O. Box 1383
El Reno, OK 73036

Please Route To:
Operational Managers
DON, RN, Nurse Assessment Coordinators
MDS Coordinators

These sessions will provide the critical training needed to transition to the implementation of the MDS 3.0. Attendance is strongly recommended for operational managers, including administrators and functional managers such as DONs, RNs, Nurse Assessment Coordinators, and MDS Coordinators.

Oklahoma City

Master the MDS 3.0 Information

Manage the Transition to the MDS 3.0

Maximize your Operational Success

This two-seminar educational offering will prepare your team for the transition to the MDS 3.0. The MDS 3.0 is not just a form; it is a complex, integrated system of processes that begins even before a resident is admitted. It will play a crucial, continuing role in every part of the resident’s clinical and financial journey, even beyond discharge.

These seminars offer a total of 16 hours NAS CEU credit.
