

Mobilizing residents effectively

Providing safe, comfortable and dignified solutions for over 60 years

The Sara® family of active lifts are specifically designed for residents who are unable to mobilize without assistance but are able to contribute to the action independently and for whom time out of bed is the highlight of their day.

Sara Flex

Known for having the most natural sit-to-stand movement in the market, the new Sara Flex® is designed to support a broader range of residents while delivering optimized comfort.

The Sara Flex is the only lift that offers:

- An innovative silicone knee pad that self-adjusts, promoting comfort, safety and security
- Easy-to-grasp and angled patient handle that is narrow and close to the resident, ensuring optimized positioning of hands, wrists and elbows throughout the sit-to-stand movement
- Added integrated scale hand control, allowing caregivers to intuitively read weight or maneuver the lift

Sara Stedy

The Sara Stedy® is specifically designed for residents who are unable to mobilize without assistance but are able to perform part of the action independently.

The Sara Stedy is the only lift that offers:

- Pedal-operated chassis legs that easily adjust for optimum access during transfers
- Innovative pivot seat opening that provides easy access to the resident, requiring minimal handling by the caregiver
- Enhanced seat design with built-in handling grips that allow the caregiver to easily turn the support aid

Get (2) Sara Flex and (1) Sara Stedy package (LUS-SARAFAM-PR) for only \$10,403.75 — that's **17% off** \$12,590.48 MSRP!

Get (2) Sara Flex with scale and (1) Sara Stedy package (LUS-SARAFAMPREM-PR) for only \$10,494 — that's **27% off** \$14,375.50 MSRP!

Use promo code 680K when placing your order. Offer expires 12/31/18. Orders must be received by 12/31/18.

Mobilizing residents effectively

Providing safe, comfortable and dignified solutions for over 60 years

Maxi 500

Passive lifts are designed for residents who are completely dependent. The Maxi 500[®], with its compact dimensions, is suited to environments with narrow spaces, allowing you to provide quality of care during every daily procedure.

- The low-reaching boom can easily pick up people from the floor, providing safe patient handling tasks at all times
- By adding a scale, a caregiver can quickly and safely weigh a resident during any transfer

Arjo offers a variety of sling solutions for the Maxi 500 that will accommodate a safe working load of 500 lbs/272 kg:

- MAA4000 (1 each per package)
Standard clip sling with padded legs
Size range M-XXL
- MLA2000 (1 each per package)
Standard loop sling with head support and unpadded legs
Size range S-XL
- MFA2000 (10 each per box)
Disposable loop Flites[®]
Size range S-XL
